SUBJECT and AUTHOR INDEX

for ASLE TRANSACTIONS (1958-1960)

and LUBRICATION ENGINEERING (1955-1960)

These indexes include papers published in LUBRICATION ENGINEERING, Volumes 11 through 16 (1955 through 1960); and ASLE TRANSACTIONS, Volumes 1 through 3 (1958 through 1960); Volume, (Number), Year, and Page, as indicated.

To order back issues of ASLE TRANSACTIONS included in this Index, indicate Volume, (Number), and Year, include remittance, and mail to: American Society of Lubrication Engineers, 5 North Wabash Avenue, Chicago 2, Illinois. Prices: $5.00 per Volume to members ($3.00 for single Numbers); $15.00 to non-members ($8.00 for single Numbers). The following Numbers are no longer available: Vol. 1, Nos. 1 and 2 and Vol. 2, No. 1. Articles from these issues can be obtained; prices on request from ASLE.

Copies of articles from LUBRICATION ENGINEERING included in this listing are available; prices on request. However, copies of the full issue are not, so be sure to specify the article by title and issue.

Additional Copies of this Index are available at $1.00 each.

Classification Index

Additives 145
Aircraft 145
Bearing Design and Lubrication — Sliding Type 145
Bearing Design and Lubrication — Rolling Type 146
Boundary Lubrication 146
Centralized Lubrication 146
Coal Mines 146
Compressors 146
Conditioning 147
Corrosion 147
Cutting Oils 147
Dispensing Lubricants 147

Synthetic Lubricants 152
Tests and Testing 152
Textile Machinery Lubrication 153
Wear 153
Wire Rope Lubrication 153

SUBJECT INDEX

ADDITIVES

Analysis of Films Formed by Radioactive EP Additives, by E. H. Loeser and S. B. Twiss..... 14(8), 1958, p. 343

Antiwear and Extreme-Pressure Additives for Greases, by S. F. Calhoun..... Trans. 3(2), 1960, p. 208

Dual-Purpose Film Strength Additive for Engine Crankcase Oils, A, by G. C. Templeman ..... 13(3), 1957, p. 141

Effect of Additives on Crankcase Oil Filterability, by R. L. Willis and E. C. Ballard ..... 14(2), 1958, p. 58

Effect of Solid Additives on Fluid Lubricants, by H. L. Herzig ..... 15(4), 1959, p. 152

Evaluation of Long Chain Phosphorus Compounds as Lubricity Additives, by J. Messina, et al .Trans. 3(1), 1960, p. 48

Film Formation by an Antiwear Additive in an Automobile Engine, by M. J. Furey..... Trans. 2(1), 1959, p. 91

Influence of Silicon Additions on Friction and Wear of Nickel Alloys at Temperatures to 1000 F, The, by D. H. Buckley and R. L. Johnson ..... Trans. 3(1), 1960, p. 93

Investigation of Oil Additives for Boundary Lubrication of Railroad Journal Bearings, by A. Miller and A. A. Anderson ..... Trans. 1(2), 1958, p. 273

Measuring Activity of Sulfur Additives in Oils, by H. Sellei ..... 14(10), 1958, p. 435

Method for Studying the Effect of Extreme Pressure Additives on Rubbing Metal Surfaces, A, by A. A. Manteuffel and G. Wolfram..... Trans. 3(2), 1960, p. 157

Surface Effect Associated with the Use of Oils Containing Zinc Dialkyl Dithiephosphate, A, by P. A. Bennett..... ..... Trans. 2(1), 1959, p. 78

AIRCRAFT

Comparison of Dynamic and Static Irradiation Tests of Aircraft Fluids, by R. J. Neely ..... 15(8), 1959, p. 325

Effect of Gamma Radiation on Aircraft Instrument Lubricating Oils, The, by W. L. R. Rice..... 16(4), 1960, p. 157

New Retainer Materials for Aircraft Gas Turbine Bearings, by F. C. Wagner and J. T. Burwell, Jr. .... Trans. 1(1), 1958, p. 1

Pumpability of Aircraft Turbine Lubricants at Low Temperatures, by E. S. Starkman & J. H. Bridges..12(1), 1956, p. 43

Some Considerations Relating to Lubrication of Aircraft Turbine Engines, by A. B. Two..... 15(7), 1959, p. 280

Specific Heats of Aircraft Engine Lubricants at Low Temperatures, by V. E. Schrock & R. E. Gott ..13(6), 1957, p. 353

Thermal Conductivity of Aircraft Engine Lubricants at Low Temperatures, by V. E. Schrock & E. S. Sparkman .... 13(7), 1957, p. 393

BEARING DESIGN AND LUBRICATION — SLIDING TYPE
(see also High Temperature Lubrication)

Analysis of Equilibrim Operating Temperatures of Railroad Journal Bearings, by W. M. Keller and G. L. Pigman..... ..... 14(3), 1958, p. 108

Analysis of Orifice & Capillary-Compensated Hydrostatic Journal Bearings, An, by A. A. Raimondi and J. Boyd.... ..... 13(1), 1957, p. 28

Calculated Journal Bearing Performance of Polymer Thickened Lubricants, The, by H. H. Horowitz and F. E. Steidler ..... Trans. 3(1), 1960, p. 124

Determination of Optimum Proportions for Hydrostatic Bearings, by A. M. Loeb and H. C. Rippel .... Trans. 1(2), 1958, p. 241

Determination of the Characteristics of Hydrostatic Bearings Through the Use of the Electric Analog Field Plotter, The, by A. M. Loeb..... Trans. 1(1), 1958, p. 217

Effect of Bearing Deformation in Slider-Bearing Lubrication, The, by F. Osterle and E. Saibel..Trans. 1(1), 1958, p. 213

Effects of Fluid Film Pressure on Hydrodynamic Lubrication, by N. Tipei..... Trans. 3(2), 1960, p. 277

Experimental Investigation of Railroad Journal Bearing Operating Characteristics, by A. L. Busby and G. L. Pigman ..... 13(10), 1957, p. 546

Finite Partial Fitted Journal Bearing, The, by M. J. Jacobson and E. A. Saibel ..... Trans. 2(2), 1960, p. 242

Hydrodynamic Lubrication Of A Cam & A Cam Follower, by R. Davies..... 11(1), 1955, p. 37

Influence of Longitudinal and Transverse Profile on the Load Capacity of Pivoted Pad Bearings, The, by A. A. Raimondi ..... Trans. 3(2), 1960, p. 265

New Method for the Determination of Attitude and Eccentricity in Journal Bearings, A, by B. Sternlicht and D. D. Fuller..... 13(4), 1957, p. 208

Numerical Solution of Reynold's Equation for Sector Thrust Bearings, A, by B. Sternlicht and H. J. Sneck..... ..... 13(8), 1957, p. 459

Parallel Surface Thrust Bearing, by A. Cameron and W. L. Wood..... Trans. 1(2), 1958, p. 254

Plane Sliders of Finite Width, by D. F. Hays .... Trans. 1(2), 1958, p. 233

Predicting Performance of Starved Bearings, by D. W. Wilcock ..... 13(6), 1957, p. 348

Power Loss in Elliptical & 3-Lobe Bearings, by O. Pinkus ..... 12(2), 1956, p. 110

Recent Advances In The Hydrodynamic Theory of Slider-Bearing Lubrication, by F. Osterle and E. Saibel .... 11(3), 1955, p. 187

Rheodynamic Squeeze-Film, The, by F. Osterle, A. Charnes and E. Saibel ..... 12(1), 1956, p. 33

Solution for the Finite Journal Bearing and its Application to Analysis and Design-I, A, by A. A. Raimondi and J. Boyd ..... Trans. 1(1), 1958, p. 159

Solution for The Finite Journal Bearing and its Application to Analysis and Design-II, A, by A. A. Raimondi and J. Boyd ..... Trans. 1(1), 1958, p. 175

Solution for the Finite Journal Bearing and its Application to Analysis and Design-III, A, by A. A. Raimondi and J. Boyd ..... Trans. 1(1), 1958, p. 194

Some Factors Affecting Performance of Large Pivoted-Pad Thrust Bearings, by E. C. Kuhn and G. D. Cooper .... 15(6), 1959, p. 250

Some Mechanical Considerations in the Design of Large Thrust Bearings, by R. A. Baudry and G. E. Peterson ..... Trans. 1(1), 1958, p. 225

Study of Design Criteria for Oscillating Plain Bearings, A, by W. A. Glaeser and C. M. Allen .. Trans. 2(1), 1959, p. 32

Temperature Effects in Journal Bearing Lubrication, by W. F. Hughes and F. Osterle ..... Trans. 1(1), 1958, p. 210

Theoretical Study of the Effect of Offset Loads on the Performance of a 120° Partial Journal Bearing, A, by A. A. Raimondi ..... Trans. 2(1), 1959, p. 147

Viscosity Wedge, The, by A. Cameron..... Trans. 1(2), 1958, p. 248

BEARING DESIGN AND LUBRICATION — ROLLING TYPE
(see also High Temperature Lubrication)

Analytical Investigation of Visco-Elastic Effects in the Lubrication of Rolling Contact, An, by R. A. Burton..... Trans. 3(1), 1960, p. 1

Behavior of Lubricated Ball Bearings in Controlled Atmospheres, The, by W. A. Glaeser ..... 16(2), 1960, p. 56

Cages For High-Speed Cylindrical Roller Bearings, by W. J. Anderson and Z. N. Nemeth..... 11(1), 1955, p. 40

Design and Operation of Ball Bearings for Use in Pressurized-Water Reacter Systems, by P. R. Eklund ..... 14(4), 1958, p. 153

Effect of Aircraft Gas Turbine Oils on Roller Bearing Fatigue Life, The, by M. E. Otterbein ..... Trans. 1(1), 1958, p. 33

Effect Of Air & Nitrogen Atmospheres On the Temperature Limitations Of Liquid & Solid Lubricants In Ball Bearings, by Z. N. Nemeth and W. J. Anderson..... 11(4), 1955, p. 267

Effect of Fiber Orientation, Temperature and Dry Powder Lubricants on Rolling Contact Fatigue, by W. J. Anderson and T. L. Carter ..... Trans. 2(1), 1959, p. 108

Effect of Lubricant Viscosity and Type on Ball Bearing Fatigue Life, by W. J. Anderson and T. L. Carter..... Trans. 1(2), 1958, p. 266

Effect of Oxygen Concentration in Atmosphere on Oil Lubrication of High-Temperature Ball Bearings, by Z. N. Nemeth and W. J. Anderson..... 12(5), 1956, p. 327

Grease Lubrication of Ultra-High Speed Rolling Contact Bearings, by J. B. Accinelli ..... Trans. 1(1), 1958, p. 10

Integrally Sealed Ball Bearings, By L. D. Cobb ..... 11(5), 1955, p. 340

Lubrication of High Speed Temperature Thrust Ball Bearings, by G. S. Reichenbach, J. B. Accinelli and S. J. Beaubien ..... Trans. 1(2), 1958, p. 259

Materials in Rolling Element Bearings for Normal and Elevated (450 F) Temperature, by T. W. Morrison, H. O. Walp and R. P. Remorenko ..... Trans. 2(1), 1959, p. 129

New Retainer Materials for Aircraft Gas Turbine Bearings, by F. C. Wagner and J. T. Burwell, Jr..... Trans. 1(1), 1958, p. 1

Oil-Soaked Felt-Pad Lubrication of Ball Bearings at High Speed and High Temperature, by H. S. White, J. F. Swindells and Harriet V. Belcher ..... 11(3), 1955, p. 182

Performance of Heavily Loaded Oscillating Roller Bearings from 300 F to 600 F, The, by W. A. Glaeser..... Trans. 3(2), 1960, p. 203

Plastic Yielding and Vibrations of Rolling Element Bearings, by T. Tallian, O. G. Gustafsson and H. O. Walp..... Trans. 3(2), 1960, p. 244

Progress in Roller Bearing Lubrication, by O. J. Horger .... 16(2), 1960, p. 69

Rolling Contact Fatigue Evaluation of Bearing Materials and Lubricants, by E. G. Jackson..... Trans. 2(1), 1959, p. 121

Some Unusual Conditions Encountered In The Lubrication Of Rolling Contact Bearings, by T. W. Morrison..... 11(6), 1955, p. 405

Testing and Operation of Ball Bearings Submerged in Liquified Gases, by K. B. Martin and R. B. Jacobs ..... Trans. 2(1), 1959, p. 101

Use of Rolling Contact Bearings in Low Viscosity Liquid Metal Lubricants, by W. Markert, Jr. and K. M. Ferguson ..... 13(5), 1957, p. 285

BOUNDARY LUBRICATION

Analysis of Films Formed by Radioactive E-P Additives, by E. H. Loeser and S. B. Twiss..... 14(8), 1958, p. 343

Boundary Lubrication Studies of Typical Fluoroesters, by R. C. Bowers, R. L. Cottington, T. M. Thomas and W. A. Zisman..... 12(4), 1956, p. 245

Boundary Lubrication, Wear-in and Hydrodynamic Behavior of Bearings for Liquid Metals and Other Fluids, by L. F. Coffin, Jr..... Trans. 1(1), 1958, p. 139

Cam and Tappet Lubrication III - Radioactive Study of Phosporus in the E. P. Film, by E. H. Loeser, R. C. Wiquist and S. B. Twiss ..... Trans. 1(2), 1958, p. 329

Cam and Tappet Lubrication IV - Radioactive Study of Sulfur in the E. P. Film, by E. H. Loeser, R. C. Wiquist and S. B. Twiss..... Trans. 2(2), 1960, p. 199

Evaluating Bearing Materials Under Boundary Lubrication, by B. Lunn ..... 11(4), 1955, p. 255

Heat Absorbtion of a Boundary Lubricant, The, by E. P. Kingsbury..... Trans. 3(1), 1960, p. 30

Influence of Temperature on Boundary Lubrication, by C. W. Cowley, C. J. Ultee and C. W. West ..... Trans. 1(2), 1958, p. 281

Investigation of the Mechanism of Tungsten Disulfide Lubrication in Vacuum, by M. T. Lavik, G. E. Gross and G. W. Vaughn ..... 15(6), 1959, p. 246

Investigation of Oil Additives for Boundary Lubrication of Railroad Journal Bearings, by A. Miller and A. A. Anderson ..... Trans. 1(2), 1958, p. 273

Studies of Formation and Behavior of an Extreme-Pressure Film, by V. N. Borsoff and C. D. Wagner..... 13(2), 1957, p. 91

Theoretical Criteria for the Effectiveness of a Lubricant Film, by E. Rabinowicz ..... Trans. 1(1), 1958, p. 96

Theory of Boundary Lubrication, A, by A. Cameron..... Trans. 2(2), 1960, p. 195

Transition from Boundary to Mixed Friction, The, by R. L. Lenning..... 16(12), 1960, p. 575

CENTRALIZED LUBRICATION
(see also Dispensing Lubricants)

Centralized Lubrication in Production Foundries, by W. Kloc ..... 15(2), 1959, p. 62

Centralized Lubrication in the Coal Mining Industry, by J. J. Slomer..... 15(7), 1959, p. 286

Centralized Re-Circulating Coolant Systems for Cold Rolling Operations in the Steel and Aluminum Industries, by J. P. Wettach..... 16(9), 1960, p. 410

COAL MINES

Centralized Lubrication in the Coal Mining Industry, by J. J. Slomer..... 15(7), 1959, p. 286

Development and Testing of Fire-Resistant Hydraulic Fluids for Mine Use, by S. P. Polack ..... 15(10), 1959, p. 403

Lubrication Application Problems in Coal Mining (Panel), by G. R. Spindler, Chrmn..... 11(1), 1955, p. 46

COMPRESSORS

Hermetically Sealed Refrigeration Compressor Lubrication, by K. Borah ..... 11(5), 1955, p. 319

Radioactive Determination of Bearing Wear in a Refrigerator

Compressor, by G. R. Fox and R. C. Elwell ..... 15(4), 1959, p. 144

CONDITIONING

(see also Oil Filtration, Reclamation)

Conditioning of Vacuum Pump Oils, by G. Topol ..... 15(12), 1959, p. 492

CORROSION

(see Friction and Wear)

CUTTING OILS

(see also Metal Working Lubrication)

Concentration Effects of Cutting Oil Additives in Performance Evaluation, by A. Dorinson ..... 12(6), 1956, p. 387

Controlling The Spoilage of Water Soluble Cutting Fluids, by C. D. Flemming and R. J. Baker .... 16(9), 1960, p. 414

Cutting Fluid Performance, by H. W. Husa and W. L. Bulkley ..... 13(10), 1957, p. 557

Cutting Fluids: Fundamentals and Evaluation, by L. H. Sudholz ..... 13(9), 1957, p. 509

Evaluating Cutting Fluids in Accelerated Machining Tests, by F. J. Daasch, S. L. Eisler, W. D. McHenry, R. K. Paton ..... 13(9), 1957, p. 516

Machinability or Cutting Fluid Evaluation by Drilling Torque Test, by R. D. Clouse and E. R. Hall .. 14(11), 1958, p. 483

Nitroparaffine Inhibitors for Cutting Fluids, by E. O. Bennett and H. N. Futch ..... 16(5), 1960, p. 228

Prevention of Cutting Oil Dermatoses, The, by D. J. Birmingham ..... 13(3), 1957, p. 129

Role of Sulfate-Reducing Bacteria in the Deterioration of Cutting Emulsions, The, by E. O. Bennett ..... 13(4), 1957, p. 215

Tapping Test for Evaluating Cutting Fluids, A, by C. D. Flemming and L. H. Sudholz ..... 12(3), 1956, p. 199

Theory of Cutting-tool Wear and Cutting-oil Action, A, by A. Dorinson ..... Trans. 1(1), 1958, p. 131

Two Measurement Techniques Used in the Evaluation of Cutting Fluids, by J. R. Muenger and N. C. Derby ..... Trans. 3(1), 1960, p. 55

DISPENSING LUBRICANTS

Circulating Oil System: A Practical Manual, by R. E. Forsythe ..... 13(8), 1957, p. 443

Grease Lubrication Dispensing Equipment, Its Operation & Application, by L. R. McDonald ..... 11(6), 1955, p. 402

Modern Techniques for Spray Lubricating Industrial Gearing, by E. J. Gesdorf ..... 15(10), 1959, p. 398

Modification of Force Feed Lubricators, by R. L. Churchwell and F. J. Kokas ..... 16(5), 1960, p. 210

Spray & Drip Methods of Applying Lubricant to Wire Rope, The, by D. B. Burroughs ..... 12(3), 1956, p. 193

Survey of Lubrication Methods, A, Part 1 - Characteristics of Lubricating Methods, by A. F. Brewer ..... 16(3), 1960, p. 102

Survey of Lubrication Methods, A, Part 2 - Lubrication Categories, by A. F. Brewer ..... 16(4), 1960, p. 153

Survey of Lubrication Methods, A, Part 3 - Compendium of Lubricating Devices, by A. F. Brewer .. 16(5), 1960, p. 206

Survey of Lubrication Methods, A, Part 3 - Compendium of Lubricating Devices - (cont.), by A. F. Brewer ..... 16(6), 1960, p. 271

Survey of Lubrication Methods, A, Part 3 - Compendium of Lubricating Devices - (cont.), by A. F. Brewer ..... 16(7), 1960, p. 312

Survey of Lubrication Methods, A, Part 3 - Compendium of Lubricating Devices - (cont.), by A. F. Brewer ..... 16(11), 1960, p. 519

DISPOSAL

Disposal of Soluble Oil Wastes, The, by E. E. McClung ..... 12(3), 1956, p. 196

Treatment of Oil Wastes from Machining Plants, by M. F. Madarasz ..... 14(4), 1958, p. 145

ECONOMICS

(see also Lubrication Engineering, Plant Lubrication)

Economics of Automatic Power Lubrication as Applied to the Textile Industry, by C. E. Moss. ..... 15(2), 1959, p. 58

Economics of Oil Reclamation for Railroad Equi; ment, by T. W. Potter ..... 14(9), 1958, p. 382

Economics of Rolling-Contact Bearing Inspection, by C. L. Miller ..... 15(1), 1959, p. 18

Increased Machine Productivity Demands Well-Designed Lubrication Practices, by R. H. Guy. ... 14(4), 1958, p. 142

Right Lubricant at the Right Price, The, by G. L. Duke ..... 15(5), 1959, p. 213

FIRE RESISTANT FLUIDS

(see also Hydraulics)

Development and Testing of Fire-Resistant Hydraulic Fluids for Mine Use, by S. P. Polack ..... 15(10), 1959, p. 403

Emulsion Type Fire Resistant Hydraulic Fluids; New Developments Reflect Improved Performance, by C. E. Francis and R. T. Holmes ..... 14(9), 1958, p. 385

Place for Emulsions as Fire-Resistant Power Transmission Fluids, The, by G. T. Coker and C. E. Francis ..... 12(5), 1956, p. 323

FOAMING

Foaming of a Heavy-Duty Lubricating Oil, by W. M. Pugh and L. M. Tichvinsky ..... 11(1), 1955, p. 29

FRETTING CORROSION

Experimental Study of Fretting and Galling in Dental Couplings, by F. E. Reed and J. F. Batter. ..... Trans. 2(2), 1960, p. 159

Fretting of Hardened Steel in Oil, by J. R. McDowell ..... Trans. 1(2), 1958, p. 287

Friction & Fretting With Solid Film Lubricants, by E. E. Weismantel ..... 11(2), 1955, p. 97

Study of Fretting Wear in Mineral Oil, A, by D. Godfrey ..... 12(1), 1956, p. 37

FRICTION AND WEAR

(see also Boundary Lubrication)

Adhesion Between Metals and its Effect on Fixed and Sliding Contacts, by W. P. Mason ..... Trans. 2(1), 1959, p. 39

Adapting The Static Water Drop Test To Research Methods, by E. J. Schwoegler and L. U. Berman.. 11(6), 1955, p. 381

Atoms Trace The Wear, by W. R. Miller and H. R. Jackson ..... 11(4), 1955, p. 238

Bench Test of Cam and Tappet Wear in Additive Oils, by E. H. Loeser ..... Trans. 3(2), 1960, p. 184

Brief Examination of Factors Affecting Tractive Friction Coefficients of Spheres Rolling on Flat Plates, A, by W. S. Rouverol and R. I. Tanner ..... Trans. 3(1), 1960, p. 11

Cam & Tappet Tests for Lubricants, I-Anti-Scuff Evaluation, by E. H. Loeser, D. M. Teague, P. J. Willson and S. B. Twiss ..... 13(4), 1957, p. 191

Cam and Tappet Test for Lubricants, II-Wear Evaluation, by

E. H. Loeser, S. B. Twiss and D. M. Teague..... 13(5), 1957, p. 269

Causes and the Control of Electrical Current in Bearings, The, by J. Boyd and H. N. Kaufman..... 15(1), 1959, p. 28

Chrome Face vs. Iron Side Wear - An Analysis of Some Radioactive Piston Ring Wear Studies, by R. G. Abowd, Jr..... Trans. 1(1), 1958, p. 91

Conduction of Current in Bearings, The, by H. N. Kaufman and J. Boyd ..... Trans. 2(1), 1959, p. 67

Determining Wear in Automotive Engines, by R. L. Pontius ..... 15(3), 1959, p. 110

Distribution of E. P. Films on Wear Surfaces, by R. C. Wiquist, et al ..... Trans. 3(1), 1960, p. 40

Effect of Lubricants on Gear Tooth Scuffing, The, by P. M. Ku and B. B. Baber ..... Trans. 2(2), 1960, p. 184

Effects Of Sliding Velocity & Temperature On Wear & Friction Of Several Materials, by R. L. Johnson, M. A. Swikert and E. E. Bisson ..... 11(3), 1955, p. 164

Electron Microscope Study of Lubrication & Wear, by S. B. Twiss, C. R. Lewis and D. M. Teague ... 12(2), 1956, p. 102

Equilibrium Distribution of Transfer Fragments, The, by E. Rabinowicz ..... 12(6), 1956, p. 401

Evaluation of Gear Materials Scoring at 700 F, by E. G. Jackson, et al ..... Trans. 3(1), 1960, p. 69

Experimental Study of Fretting and Galling in Dental Couplings, by F. E. Reed and J. F. Batter..... Trans. 2(2), 1960, p. 159

Extreme-Pressure Lubrication and Wear. The Influence of Contact Stress on Metallic Wear, by A. Dorinson and V. E. Broman..... Trans. 3(2), 1960, p. 165

Extreme-Pressure Lubrication and Wear. The Influence of Rubbing Speed on Metallic Wear at Two Contact Pressures, by A. Dorinson and V. E. Broman..... Trans. 3(2), 1960, p. 176

Factors Influencing Friction & Wear with Solid Lubricants, by M. B. Peterson and R. L. Johnson ... 11(5), 1955, p. 325

Friction and Contact Resistance of Metals and Alloys in Reciprocating Sliding, The, by Y. Tamai..... Trans. 3(1), 1960, p. 26

Friction and Wear of Refractory Compounds, by K. P. Zeman and L. F. Coffin, Jr. ..... Trans. 3(2), 1960, p. 191

Frictional Characteristics Of Plastics, by W. C. Milz and L. B. Sargent, Jr..... 11(5), 1955, p. 313

Friction of Polytetrafluoroethylene Dry Bearings, by S. B. Twiss, P. J. Willson, and E. J. Sydor ... 14(6), 1958, p. 255

Frictional Resistance of A Radially-loaded Journal Bearing with Grease Lubrication, by R. K. Chakrabarti and R. J. Harker..... 16(6), 1960, p. 274

High Temperature Friction and Wear Properties of Bonded Solid Lubricant Films Containing Lead Monoxide, by R. L. Johnson and H. E. Sliney..... 15(12), 1959, p. 487

Influence Of Moisture On The Friction & Surface Damage Of Clean Metals, The, by R. O. Daniels and A. C. West ..... 11(4), 1955, p. 261

Influence of Silicon Additions on Friction and Wear of Nickel Alloys at Temperatures to 1000 F, The, by D. H. Buckley and R. L. Johnson ..... Trans. 3(1), 1960, p. 93

Initial Axle Problem, An: Rear Axle Noise, by J. E. Cardillo ..... 13(8), 1957, p. 464

Interpreting Ball Bearing Damage, by B. J. Dempsey ..... 11(2), 1955, p. 91

Investigation of Wear by Electron Diffraction, by L. M. Niebylski, M. Antler and L. O. Brockway..... Trans. 1(2), 1958, p. 304

Load Support and Anti-Scuffing Properties of Lubricants - IAE Gear Machine Studies, by R. J. Benzing..... 16(12), 1960, p. 583

Mass & Energy Balance for the Wear Process, A, by P. F. Chenea and A. E. Roach..... 12(2), 1956, p. 123

Mechanism of "Free" Rolling Friction, The, by D. Tabor ..... 12(6), 1956, p. 379

Method for Studying the Effect of Extreme Pressure Additives on Rubbing Metal Surfaces, A, by A. A. Manteuffel and G. Wolfram..... Trans. 3(2), 1960, p. 157

Neutrons, Gamma Rays, & Wear, by A. Hundere, G. C. Lawrason and J. P. O'Meara ..... 11(4), 1955, p. 230

Oscillating Tangential Forces on Cylindrical Specimens in Contact at Displacements within the Region of No Gross Slip, by R. V. Klint ..... Trans. 3(2), 1960, p. 255

Radioactive Determination of Bearing Wear in a Refrigerator Compressor, by G. R. Fox and R. C. Elwell ..... 15(4), 1959, p. 144

Russian Research on Lubrication and Wear, by D. Godfrey ..... 14(1), 1958, p. 27

Shot Peening in Relation to Gear Tooth Scoring, by J. C. Straub ..... 15(3), 1959, p. 106

Study of the Effect of Wear Particles and Adhesive Wear at High Contact Pressures, A, by E. B. Sciulli and G. M. Robinson..... Trans. 1(2), 1958, p. 312

Study of the Sliding of Metals with Particular Reference to Atmosphere, A, by L. F. Coffin, Jr. ..... 12(1), 1956, p. 50

Techniques for Surface Examination and their Contribution to our Knowledge of Friction and Wear, by F. T. Barwell ..... 14(9), 1958, p. 391

Transition Temperature for Surface Damage in Sliding Metallic Contact, by L. F. Coffin, Jr. ... 13(7), 1957, p. 399

Transition Temperatures in Sliding Systems, by R. S. Fein, C. N. Rowe and K. L. Kreuz ..... Trans. 2(1), 1959, p. 50

War on Wear, The, by A. F. Brewer ..... 15(3), 1959, p. 104

Wear and Friction of Filled Polytetrafluoroethylene Compositions in Liquid Nitrogen, by D. W. Wisander, C. E. Maley and R. L. Johnson ..... Trans. 2(1), 1959, p. 58

Wear and Frictional Characteristics of Some Nickel-Base Alloys, by R. A. Kozlik..... Trans. 1(2), 1958, p. 296

Wear of Cobalt Base and Stainless Materials in High Purity Water, by N. B. Dewees ..... Trans. 1(2), 1958, p. 319

Wear Studies with Radioactive Gears, by V. N. Borsoff ..... 12(1), 1956, p. 24

GEAR LUBRICATION

Analytical Study of Surface Loading and Sliding Velocity of Automotive Hypoid Gears, by D. L. Powell and H. R. Barton..... Trans. 2(2), 1960, p. 173

Design and Testing Considerations of Lubricants for Gear Applications, by E. E. Shipley..... 14(4), 1958, p. 148

Effect of Lubricants on Gear Tooth Scuffing, The, by P. M. Ku and B. B. Baber ..... Trans. 2(2), 1960, p. 184

Effect of Lubricants on Gear-Tooth Surface Fatigue, The, by T. F. Davidson and P. M. Ku... Trans. 1(1), 1958, p. 40

Gear Lubrication in Inert Gas Atmospheres, by B. B. Baber, et al ..... Trans. 3(1), 1960, p. 142

High Horsepower and High Torque Performance of E. P. Gear Lubricants, by R. K. Nelson and L. J. Valentine .... Trans. 3(2), 1960, p. 237

Investigation of Factors Affecting High-Temperature Gear Operation, by E. E. Shipley..... 15(3), 1959, p. 98

Laboratory Rating Method for Extreme Pressure Gear Lubricants, A, by A. J. DeArdo and L. B. Sargent, Jr..... 15(9), 1959, p. 367

Look at the Problem of Gear Lubrication, A, by A. Hundere ..... 15(9), 1959, p. 358

Lubrication Engineer Surveys Steel Mill Gearing, A, by A. E. Cichell: Part I ..... 13(11), 1957, p. 586
Part II..... 13(12), 1957, p. 633

Lubrication Problems in High-Speed Gears, by J. Dern ..... 15(1), 1959, p. 23

Recent Developments in the Lubrication of Heavy Duty Industrial Gearing, by G. P. Maurer ..... 15(9), 1959, p. 360

Spur Gears - Hertzian Contact Times, by E. K. Gatcombe, R. P. Hunnicutt, and G. F. Kinney ..... 16(7), 1960, p. 308

Wear Studies with Radioactive Gears, by V. N. Borsoff ..... 12(1), 1956, p. 24

Wright Air Development Center Gear Lubrication Research and Development, by H. R. Smith..... 15(7), 1959, p. 290

GREASES

Antiwear and Extreme-Pressure Additives for Greases, by S. F. Calhoun ..... Trans. 3(2), 1960, p. 208

Capillary Viscometry of Lubricating Grease, by L. C. Brunstrum and R. H. Leet ..... 12(5), 1956, p. 316

Determination of Grease Consistency Using an Automatic Worker Viscometer, by H. J. Connors ... 14(1), 1958, p. 22

Effect of Capillary Length-to-Diamter Ratio on Grease Viscosity, by W. R. Miller, T. J. Walsh and R. R. Slaymaker ..... 14(5), 1958, p. 216

Effect of Thickener-Particle Dimension on Lubricating-Grease Properties, by A. C. Borg and R. H. Leet. ..... 15(11), 1959, p. 450

Evaluation Of Lubricating Grease Compatibility, by A. L. McClellan and S. R. Calish, Jr. ..... 11(6), 1955, p. 412

Flow Properties of Lithium Stearate-Oil Model Greases as Functions of Soap Concentration and Temperature, by W. H. Bauer, A. P. Finkelstein and S. E. Wiberley. ..... Trans. 3(2), 1960, p. 215

Frictional Resistance of a Radially-Loaded Journal Bearing with Grease Lubrication, by R. K. Chakrabarti and R. J. Harker. ..... 16(6), 1960, p. 274

Grease Flow in Shielded Bearings, by R. O'Halloran, J. J. Kolfenbach and H. L. Leland. ..... 14(3), 1958, p. 104

Grease Lubrication of Ultra-High Speed Rolling Contact Bearings, by J. B. Accinelli ..... Trans. 1(1), 1958, p. 10

Greases Stable to Radiation under Dynamic Conditions, by J. R. A. Handschy, J. W. Armstrong and B. E. Gordon ..... 14(7), 1958, p. 292

Grease Worker Results and Their Significance in Anti-Friction Bearing Lubrication, by E. Sillett. ..... 16(10), 1960, p. 477

Inorganic Microgel Grease Performance, by J. A. Bell ..... 13(9), 1957, p. 490

Nature & Performance of Some Inorganic Base Greases, by W. H. Peterson, J. B. Accinelli and A. Bondi. ..... 12(2), 1956, p. 95

New Thickener for Multipurpose Lubricating Greases, A, by R. J. Rosscup, D. R. Oberlink and W. L. Hayne. ..... 14(1), 1958, p. 16

Predicting Grease Performance from Capillary Viscometry Data, by J. G. Savins. ..... 16(3), 1960, p. 108

Radiation-Resistant Greases, by J. G. Carroll, R. O. Bolt and B. W. Hotten. ..... 13(3), 1957, p. 136

Radiation Stability of Silicone Greases, by D. J. Fischer, J. F. Zack, Jr. and E. L. Warrick ..... 15(10), 1959, p. 407

Service Experience with a New Industrial Multi-Purpose Grease, by S. R. Calish, Jr. ..... 13(12), 1957, p. 640

Simple Demonstration Of Flow Type In Grease, A, by H. E. Mahncke and W. Tabor. ..... 11(1), 1955, p. 22

Viscoelastic Behavior of Greases, by E. O. Forster and J. J. Kolfenbach ..... Trans. 2(1), 1959, p. 13

Yield Stress as a Factor in the Performance of Greases, by D. Evans, J. F. Hutton and J. B. Matthews. ..... 13(6), 1957, p. 341

HIGH TEMPERATURE LUBRICATION

Consideration of Lubricants for Temperatures above 1000 F, by M. B. Peterson, S. F. Murray and J. J. Florek ..... Trans. 2(2), 1960, p. 225

Dynamic Oxidation Test to Evaluate Grease on Ball Bearing Performance at High Temperature, A, by H. E. Mahncke and D. J. Boes ..... Trans. 1(1), 1958, p. 17

Effect of Oxygen Concentration in Atmosphere on Oil Lubrication of High-Temperature Ball Bearings, by Z. N. Nemeth and W. J. Anderson ..... 12(5), 1956, p. 327

Evaluation of Dry Powdered Lubricants at 1000 F, in a Modified Four-Ball Wear Machine, by S. L. Cosgrove, L. B. Sibley and C. M. Allen ..... Trans. 2(2), 1960, p. 217

Fundamental Processes in Lubricating Metal Surfaces at 100 F to 1700 F, by E. N. Klemgard... 16(10), 1960, p. 468

High-Temperature Bearing Operation in the Absence of Liquid Lubricants, by S. S. Sorem and A. G. Cattaneo. ..... 12(4), 1956, p. 258

High Temperature Lubricant Studies, by E. E. Klaus and M. R. Fenske. ..... 14(6), 1958, p. 266

Lubrication of Solids at High Temperatures, The, by B. L. Mordike ..... Trans. 3(1), 1960, p. 110

Meta-Linked Polyphenyl Ethers as High Temperature Radiation Resistant Lubricants, by C. L. Mahoney, et al ..... Trans. 3(1), 1960, p. 83

Oil-Soaked Felt-Pad Lubrication Of Ball Bearings At High Speed & High Temperature, by H. S. White, J. F. Swindells and Harriet V. Belcher ..... 11(3), 1955, p. 182

Rapid Determination of Heat Capacity of Liquids Over Extended Temperature Ranges, by J. W. Barger, C. C. Bolze, R. L. Hughes, and T. M. Medved. ..... 16(3), 1960, p. 105

Sliding Characteristics of Metals at High Temperature, by M. B. Peterson, et al ..... Trans. 3(1), 1960, p. 101

Solid Lubricants for Temperatures to 1000 F, by M. B. Peterson and R. L. Johnson. ..... 13(4), 1957, p. 203

HYDRAULICS

Development and Testing of Fire-Resistant Hydraulic Fluids for Mine Use, by S. P. Polack ..... 15(10), 1959, p. 403

Emulsion Type Fire Resistant Hydraulic Fluids; New Developments Reflect Improved Performance, by E. C. Francis and R. T. Holmes. ..... 14(9), 1958, p. 385

Precision Duplication by Hydraulic Tracing, by H. Horlacher and B. W. Carter ..... 16(9), 1960, p. 400

Study of Combustion-Resistant Hydraulic Fluids as Ball Bearing Lubricants, A, by H. V. Cordiano, E. P. Cochran, Jr. and R. J. Wolfe. ..... 12(4), 1956, p. 261

INDUSTRIAL HYGIENE

Industrial Dermatoses: Questions and Answers, (unauthored) ..... 13(7), 1957, p. 406

Prevention of Industrial Dermatitis, by M. L. Beardslee. ..... 13(5), 1957, p. 275

Prevention of Industrial Dermatitis in a Motor Truck Plant, ... 13(4), 1957, p. 197

Scope of the Problem of Occupational Dermatoses Due to Cutting Oils, The, by D. J. Birmingham.. 13(1), 1957, p. 19

Skin Diseases Caused by Cutting Oils, by L. F. Weber. ..... 13(2), 1957, p. 89

INSTRUMENT LUBRICATION

Determination and Correlation of Fundamental Instrument Bearing Parameters, by T. P. Barnard and R. S. Guyette ..... 16(2), 1960, p. 61

Effect of Gamma Radiation on Aircraft Instrument Lubricating Oils, The, by W. L. R. Rice ..... 16(4), 1960, p. 157

INTERNAL COMBUSTION ENGINE LUBRICATION

Assessment of Automobile Bearing Performance from Field Tests, The, by P. G. Forrester and W. E. Duckworth ..... 13(1), 1957, p. 38

Cam and Tappet Lubrication IV - Radioactive Study of Sulfur in the E. P. Film, by E. H. Loeser, R. C. Wiquist and S. B. Twiss. ..... Trans. 2(2), 1960, p. 199

Cam Tappet Test for Lubricants, I - Anti-Scuff Evaluation, by E. H. Loeser, D. M. Teague, P. J. Willson and S. B. Twiss ..... 13(4), 1957, p. 191

Cam and Tappet Test for Lubricants, II - Wear Evaluation, by E. H. Loeser, S. B. Twiss and D. M. Teague ..... 13(5), 1957, p. 269

Determining Wear in Automotive Engines, by R. L. Pontius ..... 15(3), 1959, p. 110

Dual-Purpose Film Strength Additive for Engine Crankcase Oils, A, by G. C. Templeman ..... 13(3), 1957, p. 141

Evaluation of Crankcase Lubricants for Radial Gas Engines, by D. W. Sawyer, H. D. Keefer, E. M. Kipp and R. W. Shaw ..... 12(3), 1956, p. 183

Field Study of Gas Engine Lubricants, A, by C. M. Floyd ..... 13(12), 1957, p. 647

Film Formation by an Antiwear Additive in an Automobile Engine, by M. J. Furey..... Trans. 2(1), 1959, p. 91

Heavy Duty High Output Internal Combustion Engine Lubrication, by W. M. Kauffmann ..... 14(10), 1958, p. 426

Low Temperature Study of the Relationship between Engine Cranking Speed and Lubricant Viscosity, A, by T. W. Selby..... Trans. 2(2), 1960, p. 208

Lubrication of Air Cooled and Water Cooled Two-Stroke Cycle Engines, by L. E. Haas..... 15(11), 1959, p. 436

Lubrication of Outboard Motors, by R. C. Conover ..... 14(8), 1958, p. 340

New Approach to the Lubricating Problem of Internal Combustion Engines, A, by F. A. Kirigin ... 16(7), 1960, p. 315

Physico-Chemical Investigation of Engine-Oil Performance, by A. Bondi, S. J. Beaubien and H. Diamond..... 12(4), 1956, p. 267

Polytetrafluoroethylene Insert Compression Rings in Radial Gas Engines, by D. W. Sawyer and D. A. Paull..... 16(9), 1960, p. 406

Radiotracer Approach to the Study of Engine Valve Train Lubrication, A, by M. J. Furey and J. R. Kunc, Jr..... 14(7), 1958, p. 302

LUBRICATING SYSTEMS

(see Dispensing Lubricants, Mist Lubrication)

LUBRICATION ENGINEERING

(see also Plant Lubrication)

Development of Special Lubricants and Lubrication Practices for Small Apparatus, by F. Hardy ..... 15(8), 1959, p. 328

Increased Machine Productivity Demands Well-Designed Lubrication Practices, By R. H. Guy ... 14(4), 1958, p. 142

Lubrication Engineer in Action, The - Dean Cleaveland at Bendix, Report No. 1, by R. M. Skallerup..... 16(4), 1960, p. 148

Lubrication Engineer in Action, The - Charles A. Bailey at the National Tube Division of U. S. Steel, Report No. 2, by R. M. Skallerup ..... 16(6), 1960, p. 264

Lubrication Engineer in Action, The - Stuart L. McDoniel at Metropolitan Sanitary District of Greater Chicago, Report No. 3, by R. M. Skallerup..... 16(8), 1960, p. 354

Lubrication Engineer in Action, The - Charles L. Pope at Eastman Kodak Company, Report No. 4, by R. M. Skallerup ..... 16(10), 1960, p. 462

Lubrication Engineer in Action, The - John F. Willcox at American Viscose, Report No. 5, by R. M. Skallerup ..... 16(11), 1960, p. 514

Lubrication Engineer in Action, Verson All-Steel Press, Report No. 6, by R. M. Skallerup ..... 16(12), 1960, p. 568

Right Lubricant, The, - Marketing and Technical Service, by H. Muller ..... 15(5), 1959, p. 202

Right Time, The, - Mechanized Scheduling of Lubrication, by P. J. Galbreath..... 15(5), 1959, p. 210

Right Quantity, The, by C. R. Galbreath... 15(5), 1959, p. 212

MACHINE TOOL LUBRICATION

Survey of Way Lubrication Problems Peculiar to Servo-Controlled Machine Tools, A, by R. K. Sedgwick ..... 16(1), 1960, p. 19

METAL WORKING LUBRICATION

(see also Cutting Oils)

Chemical Conversion Coatings for the Lubrication of Titanium, by E. L. White and P. D. Miller..... 14(11), 1958, p. 479

Choose Your Press Drawing Lubricants with Care, by L. Salz ..... 13(9), 1957, p. 494

Comparison of Lubricants and Coatings for Cold Extruding Titanium, A, by A. M. Sabroff and P. D. Frost ..... Trans. 3(1), 1960, p. 61

Cutting Fluid Performance,by H. W. Husa and W. L. Bulkley ..... 13(10), 1957, p. 557

Cutting Fluids: Fundamentals and Evaluation, by L. H. Sudholz..... 13(9), 1957, p. 509

Evaluating Cutting Fluids in Accelerated Machining Tests, by F. J. Daasch, S. L. Eisler, W. D. McHenry, R. K. Paton ..... 13(9), 1957, p. 516

Fluids For The Grinding Of Titanium, by E. J. Krabacher ..... 11(6), 1955, p. 397

Grinding Temperatures, by J. E. Mayer, Jr. and M. C. Shaw ..... 13(1), 1957, p. 21

Lubrication Problems in Fabrication of Nuclear Reactor Metals, by P. Loewenstein ..... 14(6), 1958, p. 262

Lubricants in the Forming of Aluminum, by M. Petronio ..... 14(12), 1958, p. 510

Maintenance Of Quality In Aluminum Sheet Rolling Oils, by J. O. McLean..... 11(5), 1955, p. 337

Maintenance Of Water-Soluble Machining Coolants During Use, by J. A. Prevel..... 11(3), 1955, p. 178

Mill and Laboratory Evaluation of Oils for Rolling of Copper Alloys, by F. L. Reynolds..... 14(3), 1958, p. 98

On a Criterion of Cutting Velocity in Metal Machining, by F. F. Ling and E. Saibel..... Trans. 1(1), 1958, p. 124

Radiotracer Study of the Effect of Lubricants on Metal Transfer in Drawing Brass, by C. Fisher, A. Shapiro, S. Berk, M. Petronio, L. Teitell and H. Gisser ..... 14(7), 1958, p. 310

Radioactive Study of the Metal Cutting Process, A, by I. Finnie and E. Rabinowicz..... 12(1), 1956, p. 29

Sliding Friction Test for Metalworking Lubricants, by W. J. Wojtowicz..... 11(3), 1955, p. 174

Test Procedures for Compounds Used as Preservatives in Industrial Coolants, by L. J. Brandeberry and H. V. Myers, Jr..... 16(4), 1960, p. 161

Test Procedures for the Evaluation of Cutting Fluids, by R. J. Yanis and G. F. Wolfe ..... 16(4), 1960, p. 164

Threading Test for Cutting Oil Evaluation, A, by H. A. Hartung, J. W. Johnson and A. C. Smith, Jr..... 13(10), 1957, p. 538

MISCELLANEOUS

Addenda to ASLE Transactions, Vol. 2 No. 1..... Trans. 2(2), 1960, p. 257

Custom E-P Installation Services High Speed Drives (unauthored)..... 13(11), 1957, p. 590

Lubrication of Friction Drives, The, by T. B. Lane ..... 13(2), 1957, p. 85

Radiant Heating Of Lubricating Oil, by R. H. Johnson ..... 11(1), 1955, p. 35

Recent Advances In The Lubrication Field, by B. B. Farrington ..... 11(1), 1955, p. 17

What Happened to My Oil?, by C. W. Nichols, Jr..... 11(4), 1955, p. 242

Workpiece Compatibility of Ceramic Cutting Tools, by M. C. Shaw and P. A. Smith ..... Trans. 1(2), 1958, p. 336

MIST LUBRICATION

Fog Lubrication of Machine Tools, by D. G. Faust..... 14(2), 1958, p. 54

OIL FILTRATION

(see also Reclamation)

Considerations in Filter Selection, by H. A. Wilson ..... 14(5), 1958, p. 208

Effect of Additives on Crankcase Oil Filterability, by R. L. Willis and E. C. Ballard ..... 14(2), 1958, p. 58

Lubricating Oil Filteration, by R. A. Howland ..... 14(11), 1958, p. 473

Lubricating Oil Filtration on Diesel Railroads, by W. King Simpson..... 13(8), 1957, p. 440

Vacuum Dehydration of Oils, by G. J. Topol ..... 14(1), 1958, p. 19

OXIDATION

Dynamic Oxidation Test to Evaluate Grease on Ball Bearing Performance at High Temperature, A, by H. E. Mahncke and D. J. Boes ..... Trans. 1(1), 1958, p. 17

Laboratory Evaluation of the Resistance to Oxidation of "R & O" Industrial Oils, by W. C. Milz and E. M. Kipp ..... 12(6), 1956, p. 396

Role of Atmospheric Oxidation in High Speed Sliding Phenomena - II, The, by M. Cocks ..... Trans. 1(1), 1958, p. 101

Rotary Bomb Oxidation Test, The, by G. von Fuchs..... 16(1), 1960, p. 22

PLANT LUBRICATION

(see also Lubrication Engineering, Steel Mills, Textile Machinery Lubrication)

Application Problems with Petroleum Lubricants in Nuclear Power Plants, by R. F. Hausman and E. R. Booser..... 13(4), 1957, p. 199

Centralized Lubrication in Production Foundries, by W. Kloc..... 15(2), 1959, p. 62

Du Pont's Program: Planned Lubrication for Three Plant Types, by R. W. Clark..... 13(7), 1957, p. 384

Industry Looks at Automation in Lubrication, by R. H. Cottrell ..... 14(11), 1958, p. 470

Organization of a Plant Lubrication Program - I, by A. Bolden ..... 12(4), 1956, p. 254

Organization of a Plant Lubrication Program - II, by O. J. Seidl..... 12(5), 1956, p. 331

Organization of a Plant Lubrication Program - III, by C. G. Hollister ..... 12(6), 1956, p. 392

Peak Output Through Planned Lubrication - At a Chrysler Automated Engine Plant, by D. F. Miller..... 13(8), 1957, p. 436

Plant Safety as Related to Lubrication (Panel), D. W. Dodson, Chrmn..... 12(2), 1956, p. 117

Right Place, The, - Plant Practices in Lubrication and Preventive Maintenace, by R. G. Grothus..... 15(5), 1959, p. 205

PROPERTIES OF LUBRICANTS

(see also Synthetic Lubricants)

Chemical Composition of Lubricating Oils, Cutting Oils and Petroleum Solvents, by W. C. Witham ... 13(2), 1957, p. 83

Chemical Conversion Coatings for the Lubrication of Titanium, by E. L. White and P. D. Miller..... 14(11), 1958, p. 479

Chemical Nature of Extreme Pressure Lubrication, by G. Hugel..... 14(12), 1958, p. 523

Composition and Action of Protective Ointments, by J. M. Shaw ..... 13(6), 1957, p. 349

Contribution of Polymers to Oil Properties Important to Engine Lubrication, The, by S. M. Darling and J. M. Musselman ..... Trans. 3(1), 1960, p. 134

Development of Radiation Resistant Oils, by J. G. Carroll and R. O. Bolt ..... Trans. 2(1), 1959, p. 1

Dynamic Demulsibility Characteristics of Oils, by E. W. Brennan and R. G. Moyer..... 13(3), 1957, p. 146

Effects of High Energy Ionizing Radiation on Turbine Oil Performance Characteristics, The, by C. F. Knottcamp, R. P. Nejak and R. T. Kern ..... Trans. 2(1), 1959, p. 7

General Radiation Damage Problems for Lubricant and Bearing Type Materials, by V. P. Calkins and C. G. Collins..... Trans. 1(1), 1958, p. 87

Lubricant Behavior in Concentrated Contact - Some Rheological Problems, by F. W. Smith.... Trans. 3(1), 1960, p. 18

Non Newtonian Characteristics of Lubrication Oils, by T. W. Selby..... Trans. 1(1), 1958, p. 68

Relationship Between the Oil-Water Ratio and the Effectiveness of Inhibitors in Soluble Oil Emulsions, by V. Carlson and E. O. Bennett ..... 16(12), 1960, p. 572

Relaxation Phenomena In Lubrication, by E. O. Forster..... 16(11), 1960, p. 523

Significance Of Viscosity Studies Of Fluid Lubricants At High Pressures, by L. B. Sargent, Jr.... 11(4), 1955, p. 249

Slope Index - An Expression for Viscosity-Temperature Characteristics, by E. E. Klaus, R. E. Hersh and M. J. Pohorilla ..... 14(10), 1958, p. 439

Solubility of Helium in Various Lubricating Oils at High Temperatures and Pressures, The, by D. J. Boes..... Trans. 3(2), 1960, p. 232

Some Effects of Gamma Radiation on Commercial Lubricants, by J. G. Carroll and S. R. Calish, Jr. ..... 13(7), 1957, p. 388

Some Viscosity-Shear Characteristics Of Lubricants, by E. E. Klaus and M. R. Fenske ..... 11(2), 1955, p. 101

Surface Viscosity and Elasticity of Lubricating Oils, by D. W. Criddle ..... 13(3), 1957, p. 131

Synthetic Ester Lubricants, by M. Z. Fainman and R. S. Barnes..... 13(8), 1957, p. 454

Use of an Automatic Viscometer for the Study of Lubricant Flow, The, by R. N. Weltmann and P. W. Kuhns..... 13(1), 1957, p. 43

Viscosity Measurements on Polymer Modified Oils, by W. Philippoff..... Trans. 1(1), 1958, p. 82

RAILROADS

Analysis of Equilibrium Operating Temperatures of Railroad Journal Bearings, by W. M. Keller and G. L. Pigman..... 14(3), 1958, p. 108

Developments in Railroad Journal Bearings, by M. A. Hanson ..... 15(11), 1959, p. 455

Economics of Oil Reclamation for Railroad Equipment, by T. W. Potter ..... 14(9), 1958, p. 382

Experimental Investigation of Railroad Journal Bearing Operating Characteristics, by A. L. Busby and G. L. Pigman ..... 13(10), 1957, p. 546

Friction and Oil Feed Characteristics of Journal Box Packing, by G. L. Pigman and W. M. Keller..... Trans. 1(1), 1958, p. 151

Infrared Hot Box Protection, by W. M. Pelino and D. M. Key, Jr..... 16(8), 1960, p. 363

Investigation of Oil Additives for Boundary Lubrication of Railroad Journal Bearings, by A. Miller and A. A. Anderson ..... Trans. 1(2), 1958, p. 273

Journal Box Lubrication, by H. D. Plumly ..... 13(11), 1957, p. 592

Lubricating Oil Filtration on Diesel Railroads, by W. King Simpson..... 13(8), 1957, p. 440

Silicon Analyses of Diesel R. R. Crankcase Oils, by C. W. Lewis, Jr..... 13(9), 1957, p. 505

RECLAMATION

(see also Oil Filtration)

Economics of Oil Reclamation for Railroad Equipment, by T. W. Potter ..... 14(9), 1958, p. 382

Recovery of Used Cutting Oils: Evaluation of Centrifugal

Clarification, by A. H. Lipton and R. F. McKibben ..... 14(6), 1958, p. 252

RUST PREVENTATIVES

(see also Additives)

Emulsifiable Rust Preventives, by H. B. Carpenter ..... 16(8), 1960, p. 360

Preparation of Highly Effective Rust Inhibitors by Fractionation of Mahogany Sulfonates, by K. R. Fisch, J. Messina and H. Gisser ..... 14(2), 1958, p. 64

Protective Oil Coatings, by K. F. Schiermeider and R. W. Lewis ..... 12(1), 1956, p. 19

Rust Preventives, by E. J. Colerick ..... 14(8), 1958, p. 350

SEALS

Designing and Testing Journal Box Seals, by W. L. Stewart ..... 15(6), 1959, p. 242

Development of Seals for Rocket Engine Turbopumps, by J. E. Wolf and R. E. Connelly ..... Trans. 2(1), 1959, p. 25

Effect of New E-P Lubes on Elastomers for Oil Seals, by J. Murray ..... 15(4), 1959, p. 140

Integrally Sealed Ball Bearings, by L. D. Cobb. ..... 11(5), 1955, p. 340

Investigation of Seal Materials for High Temperature Application, An, by R. H. Baskey. ..... Trans. 3(1), 1960, p. 116

Reducing Leakage from Hydraulic Systems, by R. Q. Sharpe ..... 16(1), 1960, p. 12

Wear of Carbon-type Seal Materials with Varied Graphite Content, by M. A. Swikert and R. L. Johnson ..... Trans. 1(1), 1958, p. 115

SOLID LUBRICANTS

(see also Boundary Lubrication)

Effect of Fiber Orientation, Temperature and Dry Powder Lubricants on Rolling Contact Fatigue, by W. J. Anderson and T. L. Carter ..... Trans. 2(1), 1959, p. 108

Evaluation of Dry Powdered Lubricants ato 1000 F in a Modified Four-ball Wear Machine, by S. L. Cosgrove, L. B. Sibley and C. M. Allen ..... Trans. 2(2), 1960, p. 217

Factors Influencing Friction & Wear With Solid Lubricants, by M. B. Peterson and R. L. Johnson ... 11(5), 1955, p. 325

Friction and Fretting with Solid Film Lubricants, by E. E. Weismantel ..... 11(2), 1955, p. 97

High Temperature Friction and Wear Properties of Bonded Solid Lubricant Films Containing Lead Monoxide, by R. L. Johnson and H. E. Sliney ..... 15(12), 1959, p. 487

Molybdenum Disulfide and Related Solid Lubricants, by B. C. Stupp ..... 14(4), 1958, p. 159

Plastics as Solid Lubricants and Bearings, by A. J. G. Allan ..... 14(5), 1958, p. 211

Solid Film Lubricant Composition for Use at High Sliding Velocities in Liquid Nitrogen, A, by D. W. Wisander and R. L. Johnson ..... Trans. 3(2), 1960, p. 225

Solid Film Lubrication at High Temperatures, by E. P. Kingsbury ..... Trans. 1(1), 1958, p. 121

Solid Lubricants for Temperatures to 1000 F, by M. B. and R. L. Johnson ..... 13(4), 1957, p. 203

SOLUBLE OILS

(see also Properties of Lubricants)

Controlling the Spoilage of Water Soluble Cutting Fluids, by C. D. Flemming and R. J. Baker ..... 16(9), 1960, p. 414

Current Research in the Bacteriology of Soluble Oil Emulsions, by H. Pivnick, L. R. Sabina, R. Samuel-Maharajah and C. K. Fotopoulos ..... 12(5), 1956, p. 310

Disinfection of Soluble Oil Emulsions, by H. Pivnick and C. K. Potopoulos ..... 13(3), 1957, p. 151

Disposal of Soluble Oil Wastes, The, by E. E. McClung ..... 12(3), 1956, p. 196

Relationship Between the Oil-water Ratio and the Effectiveness of Inhibitors in Soluble Oil Emulsions, by V. Carlson and E. O. Bennett ..... 16(12), 1960, p. 572

Soluble Oil - Handle With Care, by A. A. Manteuffel. ..... 11(5), 1955, p. 309

Some Considerations in the Selection and Use of Water Soluble Cutting and Grinding Fluids, by C. A. Sluhan ..... 16(3), 1960, p. 110

Test Procedures for Compounds Used as Preservatives in Industrial Coolants, by L. J. Brandeberry and H. V. Myers, Jr. ..... 16(4), 1960, p. 161

SPECIFICATIONS AND STANDARDS

Lubrication Standards for Industrial Equipment, by S. O. Kimball ..... 13(12), 1957, p. 630

Specification of Circulating Oil Systems, by J. B. Kirschner ..... 15(12), 1959, p. 484

Standardization of Plant Lubricants and Lubrication Practices, by R. O. Kageff ..... 14(3), 1958, p. 94

STEEL MILLS

(see also Plant Lubrication)

Centralized Re-Circulating Coolant Systems for Cold Rolling Operations in the Steel and Aluminum Industries, by J. P. Wettach ..... 16(9), 1960, p. 410

Glass Lubricant In The Extrusion of Steel, by J. Sejournet and J. Delcroix ..... 11(6), 1955, p. 389

Lubrication Engineer Surveys Steel Mill Gearing, A, by A. E. Cichelli, Part I ..... 13(11), 1957, p. 586
Part II ..... 13(12), 1957, p. 633

Lubrication Problems In The Steel Industry (Panel), T. A. Marshall, Chrmn. ..... 11(3), 1955, p. 171

SYNTHETIC LUBRICANTS

Boundary Lubrication Studies of Typical Fluoroesters, by R. C. Bowers, R. L. Cottington, T. M. Thomas and W. A. Zisman ..... 12(4), 1956, p. 245

Progress Report on Silicone Lubricants, A, by H. F. Lamoreaux ..... 12(1), 1956, p. 48

TESTS AND TESTING

(see also Boundary Lubrication)

Apparent Adsorption Isotherms of Oleic Acid from Hydrocarbons as Obtained from Coefficient of Friction Measurements, by A. Miller and A. A. Anderson ..... 13(10), 1957, p. 553

Comparison of Dynamic and Static Irradiation Tests of Aircraft Fluids, by R. J. Neely ..... 15(8), 1959, p. 325

Deposit Analysis In Lubrication Problems, by P. B. Burgess and J. F. Wygant ..... 11(3), 1955, p. 193

Design and Testing Considerations of Lubricants for Gear Applications, by E. E. Shipley ..... 14(4), 1958, p. 148

Determination of Grease Consistency Using an Automatic Worker Viscometer, by H. J. Connors ... 14(1), 1958, p. 22

Dynamic Tests Spark Nuclear Lube Program (unauthored) ..... 13(7), 1957, p. 380

Effect of Root Lubrication on the Damping of Cantilever Beams, The, by R. V. Klint and R. S. Owens ..... Trans. 3(1), 1960, p. 149

Effects of Nuclear Radiation on Lubricants, The, by J. A. King, and W. L. R. Rice ..... 13(5), 1957, p. 279

Effect of Pressure and Molecular Weight upon the Viscosity of Polybutenes, The, by L. B. Sargent, Jr. ... 14(7), 1958, p. 298

Effect of Shaft Rotation on Bearing Temperatures, The, by A. H. Burr ..... Trans. 2(2), 1960, p. 235

Electron Diffraction in Lubrication Research, by D. Godfrey ..... 13(11), 1957, p. 598
Engine Rusting in Service and Dynamometer Test, by P. A. Bennett ..... 16(11), 1960, p. 529
Evaluation of Fluids by Hydraulic Pump Tests, by W. M. Schrey ..... 15(2), 1959, p. 64
Factors Influencing Humidity Cabinet Test Results, by H. A. Hartung ..... 11(5), 1955, p. 332
Fundamental Study of Synthetic Sapphire as a Bearing Material, A, by L. F. Coffin, Jr. ..... Trans. 1(1), 1958, p. 108
Discussion on A Fundamental Study of Synthetic Sapphire as a Bearing Material, by L. F. Coffin, Jr. ..... Trans. 1(2), 1958, p. 345
Gear Rig as an Oil Tester, The, by E. A. Ryder ..... 15(8), 1959, p. 318
Investigation of Factors Governing Fatigue Life with the Rolling-Contact Fatigue Spin Rig, by T. L. Carter, R. H. Bear, and W. J. Anderson ..... Trans. 1(1), 1958, p. 23
Investigation of the Mechanism of Tungsten Disulfide Lubrication in Vacuum, by M. T. Lavik, G. E. Gross, and G. W. Vaughn ..... 15(6), 1959, p. 246
Investigation of Melt Lubrication, by B. Sternlicht and H. Apkarian ..... Trans. 2(2), 1960, p. 248
Laboratory Tests with Turboprop Lubricants, by H. S. White ..... Trans. 1(1), 1958, p. 51
Lubrication in the Presence of Nuclear Radiation, by J. G. Carroll and R. O. Bolt ..... 12(5), 1956, p. 305
Service Evaluation of Detergent Lubricating Oils Utilizing Electron Microscopy, A, by S. R. Rouze and F. A. Forster ..... 16(5), 1960, p. 222
Small-Scale Laboratory Evaluation Tests On Synthetic Lubricants, by F. J. Watson ..... 11(2), 1955, p. 86
Testing and Operation of Ball Bearings Submerged in Liquefied Gases, by K. B. Martin and R. B. Jacobs ..... Trans. 2(1), 1959, p. 101
Transition Temperatures in Sliding Systems, by R. S. Fein, C. N. Rowe and K. L. Kreuz ..... Trans. 2(1), 1959, p. 50
Transition Temperatures with Four Ball Machine, by R. S. Fein ..... Trans. 3(1), 1960, p. 34

TEXTILE MACHINERY LUBRICATION

Economics of Automatic Power Lubrication as Applied to the Textile Industry, by C. E. Moss ..... 15(2), 1959, p. 58

WEAR

(see Friction and Wear)

WIRE ROPE LUBRICATION

Spray & Drip Methods of Applying Lubricant to Wire, Rope, The, by D. B. Burroughs ..... 12(3), 1956, p. 193
